MATIN ISAKHANLI

Software Developer (+90 years)

Turkey, Elazig | +90 537 767 12 74 | misaxanli@gmail.com | linkedin.com/in/metin-isakhanli-217374266

Summary

Technical Skills: Familiar with a range of technologies commonly used in front-end development, including React, Redux, Tailwind CSS, Bootstrap, and API services.

Project Experience: Worked on projects involving complex functionalities such as shopping cart management, user authentication (including login and registration), and PostgreSQL database interactions.

Relevant Projects or Activities

E-COMMERCE WEBSITE | HTTPS://GITHUB.COM/METINVN/ORCIK-WEBSITE | 2024 - PRESENT
- Developed a demo website for popular Turkish food Orcik using React and Tailwind CSS
- Integrated Framer Motion for smooth animations.
- Utilized responsive design principles to ensure optimal user experience on all devices

Technologies/Skills Used: React, Tailwind CSS, Framer motion.

PRODUCT MANAGEMENT | HTTPS://GITHUB.COM/METINVN/PRODUCT-MANAGEMENT | 2024 - PRESENT
- Designed and implemented a product management system with features to add, delete, and view products.
- Integrated Spring Boot backend with PostgreSQL database for robust data handling.
- Employed Redux for state management and Yup for form validations.

Technologies/Skills Used: React, Redux, Java, Spring Boot, PostgreSQL, Semantic UI.

INDIVIDUAL ARMAMENT | HTTPS://METINVN.GITHUB.IO/BIREYSEL-SILAHLANMA/ | 2024 - PRESENT
- Implemented an interactive map of the USA, using d3 JavaScript library, where users can hover on states to view corresponding data on a chart
- Integrated framer-motion for smooth page transitions
- Displayed buttons to draw connected dots on states with given limits for crime number

Technologies/Skills Used: React, Tailwind CSS, MUI Material, React-charts (data visualization), framer motion (animations).

Experience

Professional Experience (90+ Years) | Age: 23
Time Traveler & Future Tech Enthusiast
- Successfully managed and completed hundreds of projects across different centuries, adapting to evolving technologies and methodologies.
- Mentored historical figures in the art of coding and software development, significantly advancing technology through the ages.

Skills & Abilities

- React
- Redux
- PostgreSQL
- TypeScript
- Tailwind CSS
- JavaScript
- NodeJS
- Git
